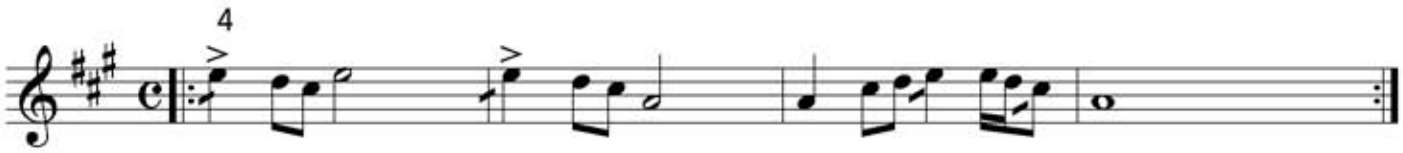
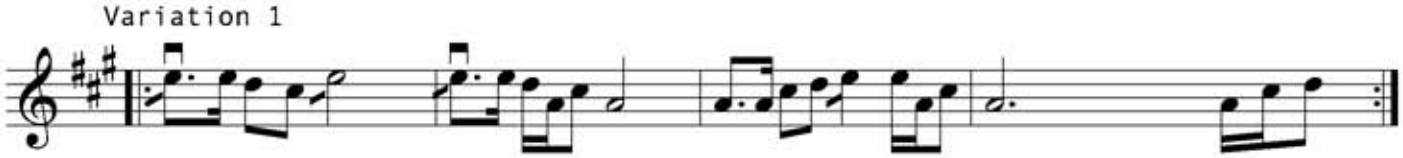
Reuben's Train

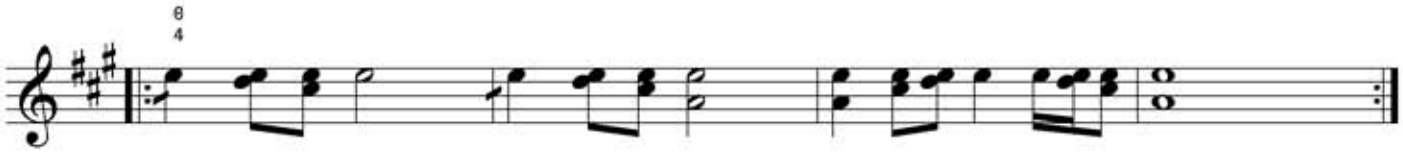
Traditional
arr. Z. Kline



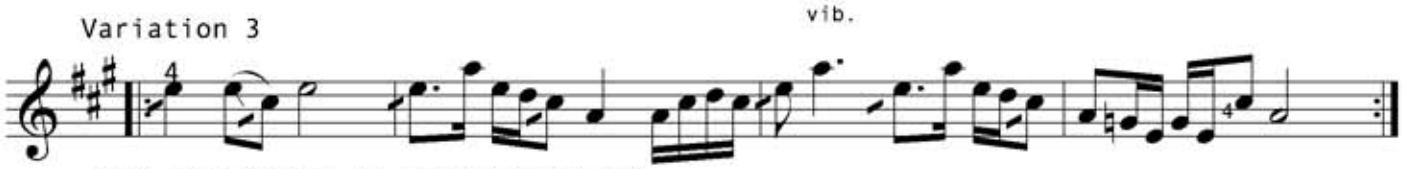
Variation 1



Variation 2



Variation 3



(use 4th finger on E's throughout)

Words (partial): Reuben made a train and he put it on the track / you could hear the whistle blow a thousand miles / Woah me, woah my, you could hear the whistle blow a thousand miles / Reuben made a train and put it on the track, running to the lord knows where / Oh me, oh my, running to the lord knows where

This melody is very similar to "John Henry" and "Working on a Building," almost like an American meta tune.
